Respective Storekeepers of all Districts.

Sub:- Letter Regarding Implementation of Diagnostics Functionality

Sir/ Madam,

The undersigned's office is delighted to inform you that the Corporation Application Diagnostics Functionality has been successfully completed. This achievement marks a significant milestone in our ongoing endeavor to transition the indent process for all medical-related requirements to an online platform. The above-mentioned application is currently applicable for rapid diagnostic requirements only.

We strongly urge all concerned parties to promptly initiate the utilization of the Diagnostics Functionality. This system promises to revolutionize the process of ordering and distributing diagnostics, offering heightened efficiency and a reduction in the risk of errors.

To ensure a seamless transition, the process of placing indents and issuing diagnostics will mirror the current process of indenting and issuing drugs. Health Facilities can login using the same credentials and navigate to the diagnostic options for mapping AMC, placing indents, issuance of diagnostics, viewing their stock and receiving of diagnostics.

District and State Warehouses will have their own respective diagnostic logins which will be shared by the IT Department. The process of indenting, issuing, receiving and viewing of stock will follow the same process but will be specific only for diagnostics.

We extend our gratitude for your commitment to advancing our shared objectives, and we eagerly anticipate a more streamlined and effective medical procurement process.

The List of Diagnostics as on the System has been attached as an Annexure.
