Sub:- Letter Regarding Implementation of Surgical Functionality

Sir/ Madam,

The undersigned's office is delighted to inform you that the Corporation Application Surgical Functionality is set for launch on the **15th of July, 2024**. This achievement marks a significant milestone in our ongoing endeavor to transition the indent process for all medical-related requirements to an online platform. The above-mentioned application is currently applicable for a **Temporary list of Surgicals (Please refer to Annexure - I)** up until the Essential Surgical List is officially launched.

We strongly urge all concerned parties to promptly initiate the utilization of the Surgical Functionality. This system promises to revolutionize the process of ordering and distributing surgicals, offering heightened efficiency and a reduction in the risk of errors.

To ensure a seamless transition, the process of placing indents and issuing surgicals will mirror the current process of indenting and issuing drugs. Health Facilities can login **using the same credentials** and navigate to the **surgical options for mapping AMC, placing indents, issuance of surgicals, viewing their stock and receiving of surgicals.**

District and State Warehouses will be using the **same login as their diagnostic logins**. The process of indenting, issuing, receiving and viewing of stock will follow the same process but will be specific for surgicals.

We extend our gratitude for your commitment to advancing our shared objectives, and we eagerly anticipate a more streamlined and effective medical procurement process.
