Sub:- Letter Regarding Update to Diagnostics Module in the Corporation Application

Ref:- MMDSL/IT/13/2023(4)

Sir/ Madam,

The undersigned's office is delighted to inform you that the Corporation Application Diagnostics Functionality has been updated to now include ELISA Test Kits. This functionality will go live by the **19th of August, 2024.**

To ensure a seamless transition, the only change in the process of placing indents is the **additional option** to select while indenting in which the user can choose between **Rapid Test Kits and ELISA Test Kits.**

With respect to the product names, they have been updated to indicate the type of Test Kit to be indented and issued where:

RTK stands for Rapid Test Kit and ETK stands for ELISA Test Kit

We extend our gratitude for your commitment to advancing our shared objectives, and we eagerly anticipate a more streamlined and effective medical procurement process.

The List of ELISA Test Kits newly added as on the System has been attached as an Annexure.

In the event of encountering any challenges, issues, or grievances related to the indent process or other pertinent matters, we invite you to promptly reach out to us. Your feedback is invaluable, and we are dedicated to addressing any concerns you may have.

Thank you for your attention to this matter.

You can contact us through the following channels:
