SCHOOL OF NURSING, CIVIL HOSPITAL SHILLONG
Email:schoolofnursing@gmail.com

No. CHS/CON/2024/14

Dated Shillong the 11th March 2024

NOTICE INVITING TENDER
FOR SUPPLY OF VARIOUS ITEMS FOR UPGRADATION OF
SCHOOL OF NURSING TO COLLEGE OF NURSING, CIVIL HOSPITAL SHILLONG

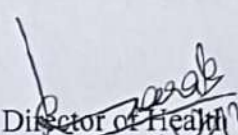

A Notice Inviting Tender for Supply Of Various items for upgradation of School Of Nursing to College of Nursing, Civil Hospital Shillong are hereby invited from the interested suppliers on the firm's letter head. Tender must be addressed to the Additional Director of Health Services, Civil Hospital, Shillong on an envelope superscribed "Limited Tender for Supply Of Various items for upgradation of School Of Nursing to College of Nursing, Civil Hospital Shillong" and the same to be submitted not later than 25th April 2024 up to 11:30am.

Sl.no.	Name of Items	"Notice Inviting Tender for Supply Of Various items for upgradation of School Of Nursing to College of Nursing, Civil Hospital, Shillong"
1	Tender Documents	Can be obtained from the School of Nursing, Civi Hospital Shillong or downloaded from https://mmdsl.in/tender?id=tender
2	Date for downloading/obtaining the Tender Documents	12 th March 2024
3	Last date and time for submission of Tender Document	25 th April 2024 up to 11:30am
4	Tender opening date and time	25 th April 2024 at 2:00pm Venue: School of Nursing, Civil Hospital, Shillong

Copy of Tender documents may please be obtained from the School of Nursing, Civil Hospital, Shillong or downloaded from the website <https://mmdsl.in/tender?id=tender>.

The Additional Director of Health Services, Civil Hospital, Shillong reserves the right to reject any or all the tenders without assigning any reason.

Note: Any changes or any further notification in respect to the above documents shall be made available only at the above mentioned website. Hence respective Tenderers are advised to visit the website regularly for the above purpose.

Additional Director of Health Services,
Civil Hospital, Shillong.

Given below the name of the items with specifications and price bid format, any deviations from the given specifications and format shall be summarily rejected. Price quoted should remain firm and fixed for all supply orders placed during the period of Rate Contract i.e. of minimum 1year or till fresh appointment is made

ANNEXURE-I

List of items with specifications:

SECTION-Ia
LABORATORY EQUIPMENTS

SL.NO	ITEM	SPECIFICATION	QUANTITY
1.	Syringe Infusion Pump	<ul style="list-style-type: none"> • The syringe pump should be programmable, user friendly , safe to use and should have battery back up and comprehensive alarm system. • Must work on commonly standard 2ml-60 ml Syringes with an accuracy of +/- 2 or better, with automatic syringe size recognition • Should have a minimum 3 inch LCD Display and display parameters like target volumes and time, infuse volume, infuse time, inline pressure, Syringes size and brand on screen as default • Should have a maximum flow rate of 3000ml per hour for both flow rate and bolus rate with 0.1 ml per hour increment, have double decimal flow rate from 0.01 up to 99.99 ml per hour in 0.01 increments • 2ml syringe: 0.01-350ml/hour in 0.01 (up to 99.99 ml per hour) and 0.1 and 1m/ hour increment • 5ml syringe: 0. 1-750ml/hour in 0.1ml/hour increment and 1ml per hour increment • 10ml syringe: 0.1 to 1000ml/hour in 0.1ml/hour (0.1-999.9ml/hr) &1ml/Hr increment • 20ml syringe: 0.1 to 1800ml/hour in 0.1ml/hour (0.1-999.9ml/hr) &1ml/Hr increment • 30ml syringe: 0.1 to 2500ml/hour in 0.1ml/hour (0.1-999.9ml/hr) &1ml/Hr increment • 50ml syringe: 0.1 to 3000ml/hour in 0.1ml/hour (0.1-999.9ml/hr) &1ml/Hr increment • Should have possibility to change the infusion rate without stopping the infusion • Should have a facility to set more than 8 infusion parameter (flow rates) at one time. • Should have a drug library upto 100 drugs sytorage capacity. Flow rate calculation base on patient weight (kg), drug concentration (mg/ml) (mcg/ml) and drug dosage(mg/kg/hr,mc/kg/min, mcg/kg/hr, mcg/kg/min). • Should have a set volume range of 0.0-9999.9ml • Should have a set time of 199.59hrs. • Should have a KVO flow rate range of 0.1-9.9ml/hr and disable as per user choice. • Should be able to save the last infusion data even when when Power OFF and ON • Should have alarms like target reached (time or volume) 	1No

2.	Radiant Warmer	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • It should be microcontroller based radiant warmer with manual and servo options. • It should have facility to display skin set, skin observed temperature in degree C and heat power separately. • Should have user friendly touch panel control. • It should have ceramic or quartz infrared or calrod heater. • It should have audio visual alarm facility for overheating beyond set temperature range. • It should have alarm facility for patient temperature less than or greater than the required temperature i.e. above or below the set range. Machine should sense the skin probe failure and cut off the heater. • Warmer head should be rotatable in different direction, so as to allow taking X-ray. • It should have alarm for probe failure, power failure, system failure and heater failure. • Observation light of 90 to 100 foot candles or 1000 Lux (color temperature range 3700K to 5100K) should be provided for inspection. • Battery backup for power failure indication during power fail. • The desired temperature range from 25 to 40 degree C and settable temperature can be from 32 to 38 degree C. • The resolution should be 0.1 degree C and accuracy should be 0.2°C. • Should have a facility to lock the keyboard to avoid unwanted user modification of the set parameters. • The height of the warmer should be adjustable for different types of bed. • It should have separate bassinet trolley; bed should be tiltable and have provision for X-Ray cassette holder, Mattress foam density should be minimum 25Kg/cm³, transparent collapsible side wall easily detachable for cleaning. Mattress size should be minimum 20"×30". • Should have feather touch operation with large digital display and comprehensive alarms. Control Panel should be liquid proof and allow easy and hygienic disinfection. • Manual mode can adjust Heater output 10-100% with 10% increment, an auditory and visual alarm shall be given at least every 15 min. • In manual mode, heater cut off / Switch off, if the maximum irradiance at any point of the mattress area exceeds a total irradiance level of 10 mW/cm² (between 10 to 30 minutes). • Bed should be about 80-100 cms from the floor and 80-90 cms from the heat source. • Should have lockable castor wheels. • Green indicator light shall be provided to indicate that warmer is ready for normal use. • Markings on the bassinet and X-Ray cassette holder are mandatory to enable proper positioning of the baby while doing the X-Ray. • The size of the drop down side shield should be such that it is 5" above the mattress surface and should be at least 6mm thick, clear and transparent. • If there is more than 60% heater output for 10 minutes it should cut off with alarm. • For the purpose of cable management there should be at least two number of tubing ports (edges 	1No
----	----------------	--	-----

3	Phototherapy (Dual Surface Phototherapy Unit High Intensity LED With Bassinet)	<p>SPECIFICATION: Dual surface phototherapy unit high intensity LED</p> <ul style="list-style-type: none"> • Protection:Electricalprotectionbyresettableovercurrentbreakersorreplaceablefusesfittedinbothliveandn eutral lines. • Powerconsumption : Should not bemorethan 160 W. <p>ACCESSORIES,SPAREPARTS,CONSUMABLES.</p> <ul style="list-style-type: none"> • Accessories(mandatory, standard,optional) • Complete set of replacement tubes to allow 3 months continuousoperationTworeplacementsetsoffuses,ifreplaceabletypeused. • Consumables:Total500nos.Infanteyemasksof bothavailable sizes(termandpretermbabies). <p>ENVIRONMENTALANDDEPARTMENTALCONSIDERAT IONS.</p> <ul style="list-style-type: none"> • Atmosphere / Ambiance (air conditioning, humidity, dust)Capable of operating continuously in ambient temperature of 10 to40degCandrelative humidityof 15to90%in ideal circumstances. • User's care, Cleaning, Disinfection & Sterility issues: Completeunit to be easily washable and serializable using both alcohol andChlorineagents. • STANDARDSANDSAFETY. Certificates (pre-market, sanitary, ..); Performance andsafetystandards (specific to thedevicetype);Localand/orinternational: Should be FDA / CE (from Notified Body) approved product. • ManufacturersshouldbeISO13485certified 	1No
4	Crash Cart	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Size 960mm L x 500mm W x 1545mm H . Frame work made of Stainless Steel tube of minimum 25mm dia. • Two light weight polystyrene boxes each with three drawers, upper drawer with medicine container of different sizes. • Provision to hold Oxygen cylinder and cardiac Massage Board. Six numbers coloured hand out bins to keep important supplies at eye level. • Two nos. Stainless Steel shelves to carry monitors, ECG Machine, suction apparatus • Provided with corner buffers & Rails. All stainless steel components should be of 304 quality. • Crash cart should be movable on four non-rusting swivel casters of 125mm dia two with brake 	1No

5	Bed Side Locker	<p>SPECIFICATION:</p> <ul style="list-style-type: none"> • Over all approx size: 40 cms x 40 cms x 82 cms H. • Body consisting of 2 sides and back is made from one piece made of 20 G MS CRCA sheet. • Top shall be fitted with superimposed stainless steel sheet 304 grade with raised edges on three sides. • One drawer 100mm H x 350mm W x 390mm D fitted , is provided below the top. • Under the drawer is an open storage space and below it is a closed-door cabinet. • Door of the cabinet box is pivoted at top and bottom. • Base of the drawer is fitted with four non-rusting swivel castors. Two buffers shall be provided at rear side of the locker box. • All mild steel components should be thoroughly in-house pretreated chemically to remove rust, grease, oil, etc. by dip tank processes, including separate degreasing, pickling, phosphating each followed by water rinsing passivating and hot air drying to give phosphate coating. The treated metal surface should then be coated in-house with epoxy polyester powder with paint film thickness of 60 microns (minimum) and oven baked at 180 deg. To 200 deg. Centigrade. All Stainless Steel used should be of 304 grade 	2 Nos
6	Instrument Trolley	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Overall size : Size: 680mm L x 450mm W x 900mm H. Stainless steel tubular frame work made of 25.4mm OD x 18 G verticals mounted on 100 mm dia non-rustingswiveling castor wheels two with brakes, two without brakes. • Two stainless steel shelves with protective railings on three sides • Only 304 grade stainless steel should be used for trolley frame work and STAINLESS STEEL shelves. 	1No
7	Stretcher Trolley	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • 2030mmx 560mmW x 810H mm. Frame work made of 31-75 OD mm x 1.60 mm vertical & 25 mm x 1.22 mm horizontal CRC tubes Trolley mounted on 15 cmsdia castors – 2 with brakes • Removable stretcher top made of 1.22 mm aluminium sheet with S.S. handle at both end with 25mm thick suitable rubber Mattress covered with good quality rexine • All mild steel components should be thoroughly pre-treated chemically to remove rust and foreign matter like Grease, Oil etc. by diptank process pretreatment system • The treated Metal Surface should have coating of Epoxy Polyester Powder with paint film thickness of 60 microns (minimum) and oven baked at 180 degree to 200 degree Centigrade to avoid contamination of the clean metal surface from dust particles 	1No

8	Labour Table With Mattress	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Approx Dimensions: 75" L x35 W x30" H. • Tubular frame of minimum 30 mm work mounted on pvc stumps. • Stainless steel (304 gades) top of 18 gauge with u cut at leg and. • Top should be mounted on rectangular frame of 50 mm* 25 mm. • Should be complete with SS bowl. • A pair of knee crutches with height adjustable. • Complete with I.V Rod at side. • Finish should be pre treated& Epoxy powder coated. • Weighing bearing capacity should be minimum 130 kg. 	1No
9	Cardiac Table	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Length : 1120 mm • Width : 450 mm • Height : 1020 mm • Tope Size: 760*450 mm • Top Material & Thickness: Pre Laminated Particle Board with 17 mm thickness. • Beeding 2 mm PVC edge Bending. • Table Height Adjustable: No • Frame Material•&Thickness : 25 mm MS round pipe with thickness of 1.6 mm. • Castor: 4 Nos. Swiveling Castor with 50 mm dia without brake. • Complete Frame Powder Coating 	3No
10	Portable ECG Machine With All Its Accessories And On Trolley	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Dimensions 256 W x 128 H x 349 Dmm • Weight 4.2 kg (without battery and recording paper) • Battery operation time 30 minutes • Display 7 –inch color TFT LCD • Number of recording channel 3, 3 + rhythm, 6, 12 • Paper speed 5, 10, 12.5, 25, 50mm/s • Recording paper 210mm width 	1No

11	Stadiometer	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Skid-proof foot plate • Smooth measuring wedge • Spirit-level indicator • Durable & Heavy duty • Resistant to heat & humidity • Portable, Easy to transport • Measuring range: 20 – 205 cm / 8 – 81" • Board depth: 5.5 cm • Graduation: 0.1 cm • Precision: ±0.2cm • Unit of Measurement: Centimetre • Accuracy: ±0.2cm • Dimensions(WxHxD): 32.8 x 214.5 x 57.4 cm • Device weight: 3.6 kg 	2 Nos
12	Oxygen Hood	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Product Dimension: 20 cm x 22 cm x 22cm Centimeters • Adjustable neck with oxygen inlet • Shape: Round/Square • Fabric Type: Silicon 	2 Nos
13	Hand Held Pulse Oximeter	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Application range: Adult/Pediatric/Neonatal • Dimension & Weight: 38mm x 60mm x25mm • Display: 2.4 LED Screen • SPO₂ : Measurement range: 0~100% <p>Resolution:1%</p> <p>Accuracy: 70%~99% ±2%(adults in the non-moving state) ±3%(in the moving state) 0%~69% no definition</p> <ul style="list-style-type: none"> • Pulse Rate <p>Measure/alarm range: 20~ 300bpm</p> <p>Resolution:1bpm</p> <p>Accuracy:±3bpm(in the non-moving state) ±5%(in the moving state)</p> <ul style="list-style-type: none"> • PI: Measure/alarm range: 1-10 • Compatible software for data analysis • Portable, light, and easy to operate 	5 Nos

		<ul style="list-style-type: none"> • Intelligent parameter monitoring interface • Automatically power-off. • Audible and visual alarm 	
14	Spot Light	SPECIFICATION Usage: Hospital Use <ul style="list-style-type: none"> • Positioning: Mobile • Body Material: Mild Steel • Light Source: LED • Number of Domes: one • Size of Light Field: 12-30 cm • Colour Reduction Index: 93 RA • LED Life : >50000 Hrs. • Brightness Control: Digital • Power Supply: 220V/50Hz AC • Focusing: Adjustable 	2 Nos
15	Digital Blood Pressure Apparatus	SPECIFICATION DigitalBloodPressureDeviceWithAdultCuff	5 Nos
16	Aneroid Blood Pressure Apparatus	SPECIFICATION AneroidBloodPressureDeviceWithAdultCuff	5 Nos
17	Led Blood Pressure Apparatus	SPECIFICATION LEDBloodPressureDeviceWithAdultCuff	5 Nos
18	PediatricBloodPressureCuffs	SPECIFICATION Pediatric blood pressure cuff (compatible withquotedaneroid bloodpressure device) <ol style="list-style-type: none"> Infantwith 4cmwidth and 8cm length Childwith9cmwidthand 18cm length Adolescentwith10cmwidthand24 cmlength Pediatric blood pressure cuff (compatible withquoteddigital bloodpressure device) <ol style="list-style-type: none"> Infantwith 4cmwidth and 8cm length Childwith 9cmwidthand 18cm length Adolescentwith10cmwidthand24cmlength 	1 No each
19	Stethoscope (Adult)	SPECIFICATION Adult	5Nos

20	Stethoscope (Pediatric)	SPECIFICATION Pediatric and Neonatal	2 Nos
21	Percussion (Hammer)	Rubber hammer with stainless steel handle 7", 8"	3Nos
22	Queens Square Hammer	Size 29 cm C 11-1/2 inch	1 No
23	Buck Hammer	7 ¾ " (187mm)	1 No
24	Warten Berg Pin Wheel	size 18 cm (7")	1 No
25	Tuning Fork	5/2 Hz, (INO) 256 Hz; C128Hz, length 7.75 inch	3 Nos
26	Colostomy Bag	1 pouch and 2 pouch Size :25x14cm hole 30mm	2 Nos each
27	Vein Finder	Single LED PCB (Torch type) 220 mm (W) x 70 mm(D)x40 mm(H)	3 Nos
28	Nebulizer Machine	<p>SPECIFICATION</p> <ul style="list-style-type: none"> ● It should be used for child and adult use ● Type-Non-heatingcompressornebulizer ● Power-230Vac,50Hz,85Wmaximum ● Medicationcapacityof5ml ● Itshouldhaveadust filter ● ItshouldhaveaadvancednebulizationTechnologywithNebulizationrateof0.2 to 0.4 ml/min (average) for effective medication ● Particlesize:0.4to8um,MMAD:4um,On time:30minutes ● Soundlevel:<70DBA(1Meter) ● Operatingpressurerange:8to16PSI,Compressorpressurerange:28to35PSI, compressor air output : around 10 LPM ● Operatingtemperaturerange:0⁰Cto40⁰C,Operating humidity range:10to95 RH. ● It should have efficient respiratory therapy,Effective Medication Delivery,Easy Carry handle , Light weight , Complete Nebulizer kit, Easy to clean, Ideal for all ages. 	3 Nos

		<ul style="list-style-type: none"> • It should be supplied with Nebulization accessory kit mask for adult & child – 2 Nos each, Medicine chamber and Air Tube (2 meters) • The quoted equipments shall have CE certification/USFDA certification/BIS certification. 	
29	Incentive Spirometer	<p style="text-align: center;">SPECIFICATION</p> <p>1. The unit should be light weight, exclusively designed to carry out examination of pulmonary system and to measure & display lung function parameters, operable through the USB port of any computer, not requiring large installation space (compact). It should come with an incentive display for cooperation free lung testing. It should have a calibration free Ultrasonic sensor.</p> <p>2. It should be designed for the following measurement protocols in the basic version</p> <ul style="list-style-type: none"> • Spirometry with pre/post comparison & individual interpretation assistance and loops/curves • Flow/volume • MVV <p>3. With possible upgradation to</p> <ul style="list-style-type: none"> • Resistance (Occlusion/Oscillatory) • Diffusion Spirometry Hedilution/CO diffusion SB • MIP & MEP for respiratory muscle strength <p>4. The system should have a reusable ultrasonic sensor (not requiring disposable tubes) free from calibration and any kind of frictional inefficiencies and which is absolutely insensitive to moisture. It should have an open kind of breathing system for preventing cross contamination with the following measurement ranges:-</p> <ul style="list-style-type: none"> • Flow Measurement • Range: 0 to +/- 16 Ltrs/sec with accuracy better than +/- 2.5% subject to a min of 50 ml/sec and resolution as low as 10 ml/sec. • Volume measurement • Range: 0 to 20 ltrs with resolution of 10 ml • Corrections • Flow Volume: ERS or ATS 	3 Nos
30	Electrical Breast Pump	<p style="text-align: center;">SPECIFICATION</p> <ul style="list-style-type: none"> • A breast pump to stimulate a mother's breast to induce milk production to breastfeed an adopted baby. Breast pumps are powered by electricity. • Should be Noiseless, programmable motorized Hospital grade breast pump which can be easily cleaned for use by multiple mothers. • Should be a double pump and able to pump both breasts at the same time to get more milk. 	1 No

		<ul style="list-style-type: none"> • Should have LCD/LED/TFT digital display. And should display the parameters like Speed, suction, timer. • Pump must have auto-shut off mode. It must auto-shut off within 30 minutes. • Should have an adjustable Vacuum level of 50mm Hg - 250 mm Hg and an adjustable frequency of 40 to 120 CPM or more. • It should be a closed system with a membrane cap attached to the Breastpump machine & also at the bottle side, to prevent backflow of the milk and cross-contamination. • Noise level should be less than 50dB. 	
31	Digital Weighing Scale Baby	<p style="text-align: center;">SPECIFICATION</p> <ul style="list-style-type: none"> • It should have Power saving AUTO-OFF function. • It should have Large & easy to read 3 digit LCD display. • It should have battery indicator – indicating that the battery needs to be replaced soon. • It can be used in hospitals, clinics. • Digital Weighing machine should be Attractive & practical curved design of weighing tray keeping baby safe and secure while it measures. • It should have TARE weight functions. Press TARE button, the display will be reset to zero. • It should have easy to read integrated measuring ruler for measuring babies weight and height simultaneously and auto lock weight for moving baby scale to allow accurate weighing despite for those active babies whose feet tend to stay still duly held by pressing HOLD button. • Power source: 1X CR2032 • LCD panel / view area: 72* 305 MM • Low power indication: LO • Tray dimension: 515x270x49MM • Scaled dimension : 515 x325 x65 MM • Glass plate dimension : 300x300x6MM • Function Mode : baby/ child • Capacity: 0– 20kg with accuracy 5g 	2 Nos
32	Glucometer with Strips	<p>SPECIFICATION</p> <p>1. Should be small, portable and user friendly device is required. Blood should not go into the Glucometer while measurement.</p>	5 Nos

		<p>2. It should be able to measure whole blood in capillary mode.</p> <p>3. Measurement range: 30 to 600 in mg/dl.</p> <p>4. Accuracy should be as per International Standard ISO 15197: 2013 (Requirements for Blood-glucose monitoring systems for self-testing in managing diabetes mellitus). Supporting certificate or test reports from the National Institutes of Biologicals (NIB) must be furnished of last 2 years with the technical bid.</p> <p>5. Reproducibility/Precision: $\pm 5\%$</p> <p>6. Display should be 40mm \pm 5mm or better measured diagonally.</p> <p>7. It should be battery operated electronics system and the battery life should be for at least 500 tests.</p> <p>8. Self life of strips: Minimum 6 months at the time of delivery to consignee.</p> <p>9. Packing of strips should not be more than 50 strips in a pack.</p> <p>10. Strips should work for minimum 3 months after opening of strips pack.</p> <p>11. Operating temperature for both device and test strips should be 100C to 400C.</p> <p>12. Should have stripejection button facility to avoid cross contamination to the operator.</p> <p>13. Control solution for checking reliability of strips will be supplied free of cost as & when required.</p> <p>14. Ready availability of reagent test strips, battery & other consumables for at least 5 years.</p> <p>Scope of supply:</p> <p>a) Glucometer: 1 no.</p> <p>b) Standard batteries: 1 Set</p> <p>c) Carrying case: 1 no.</p> <p>d) Control solution/Control Strips</p>	
33	Fetal Doppler Fd-201cr	<p>SPECIFICATION</p> <p>USAGE</p> <p>FD-201CR ultrasonic fetal doppler meets the fetus daily check and routine examination at home, clinic, community and hospital.</p> <p>FEATURES:</p> <ul style="list-style-type: none"> • Easily and convenient operate • High-fidelity, crystal clear sound • Earphone and speaker are feasible • High sensitivity doppler probe • Waveform Mode, Average Mode, User Settable Alarms for FHR • Display with color LCD • Unique ergonomic design • Unique ergonomic design <p>TECHNICAL SPECIFICATION :</p>	1 No

		<ul style="list-style-type: none"> • Ultrasound frequency: 2MHz • Ultrasound intensity: <10mW/cm² • Power supply: DC Ni-Mh rechargeable battery AC 220/110V, 50/60Hz • Display: 45mm×25mm LCD • FHR Measuring range: 50~240bpm • FHR resolution: 1bpm • FHR accuracy: ±1bpm • Power consumption: <1W • Dimension :135mm ×95mm ×35mm<1W • Weight: 500g <p>CONFIGURATION Main body 2MHz probe Ni-Mh battery Adaptor</p>	
34	Vaginal Ring Pessary.	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • High Grade Silicon Material (2 Inch.2.25 Inch, 2.50 Inch, 2.75 Inch) • Outer Diameter Size (2 Inch.2.25 Inch, 2.50 Inch, 2.75 Inch)" • Gives better support & flexibility • Shelf Life :4-5 years • Shape: Round Shape 	1 Set
35	Measuring Tape For Mid Upper Arm Circumference (MUAC) (Pediatric)	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Pediatric usage • Measurement range: 5.5-26.5cm • Graduation: 1mm • Material: non-stretch PVC • Printed scale and colour can withstand all commercially available cleaning products • Color coded: Red (sever) 0-11.5cm; Yellow (moderate) 11.5-12.5cm, green (normal) 13.5-26.5cm 	1 Packet of 1 0 0 n os
36	PediatricOxygen mask	Size 0,1,2,3	2 Nos each
37	Resuscitator Mask (Pediatric& Neonatal)	<p>SPECIFICATION</p> <ul style="list-style-type: none"> ▪ Conjugated with Resuscitators for non-spontaneously breathing patient to restore spontaneous breathing. ▪ Compatible to fit with 15mm T-piece or Y-type connector. ▪ Soft, smooth contact with the skin provides more comfort to the patient during treatment. ▪ It anatomically shape to fit the patient's nasal and mouth with tight contact to avoid leakage. ▪ Made of biocompatible silicon material ensures irritation free contact with patient's skin for long time. 	2 Nos each

		<ul style="list-style-type: none"> ▪ Available in three different nares sizes: Size 00, Size 0 & Size 1 	
38	Ambu's bag	<p>SPECIFICATION</p> <ul style="list-style-type: none"> • Bag should be made up of Silicon, latex free double layered rubber and should retain sensitivity and should be resistant to rough use. • Inlet end of the bag should have separate port for Oxygen supplement. Outer port should be such that re-breathing valve or non return valve can be attached. • Should be supplied with Oxygen reservoir bag and should deliver tidal volumes of 250/500/750 and 1000 ml. • The unit shall be capable of being stored continuously in ambient temperature of 0-50deg C and relative humidity of 15-90% • The unit shall be capable of operating continuously in ambient temperature of 10 -40 deg C and relative humidity of 15-90% 	3 Nos
39	Non Re-breathing Mask	<ul style="list-style-type: none"> • Mask size:S,M,L, XL (Paediatric, Adult) • Mask Color: Green or Transparent • Tubing length: 7 ft or 2 m • Reservoir Bag Capacity: 1 L (1000 ml) s 	1 No each

SECTION-Ib.
SIMULATORS/MANIKIN & MODELS

SL.NO	NAME OF EQUIPMENTS/MODELS	SPECIFICATION	QUANTITY
1	Multi-Venous IV Arm (Adult & Pediatric)	1. Life-like arm, simulating intravenous injection at antecubital vein & dorsum of hand, latex free with replaceable skin. Accessible veins should include median, basilica and cephalic. 2. Designed for simulating injection, peripheral intravenous therapy with feeling of vein penetration & blood flush back. It shall allow for repeated puncture without causing leak. 3. Both Adult & Pediatric IV Arm should be accessorized with Replacement skin and multi-vein system, Blood concentrate, Blood Bag with Tubing and Connector, Clamp and Hook in the carry case, Syringes, Manikin Lubricant, Carry Case	1 No
2	Soft Tissue Injection Trainer- for Intramuscular, Intradermal and Subcutaneous Injection	Shall have tissue layers representing epidermis, dermis, fat and muscle layer, simulating for subcutaneous, intradermal and intramuscular injection, latex free with replaceable tissue, It should have strap for hybrid simulation. It should be supplied with skin pad, muscle block and epidermis	1 No
3	Adult CPR Trainer with training manikin and voice guided	An Adult upper body torso for CPR training The manikin should have- a) A soft nose which can be occluded using the nose pinch technique. B) Facility for head tilt/chin lift and jaw thrust to open the airway c) Visible chest rise on effective ventilation and wireless feedback d) Feedback on ventilation volume, stomach inflation, clicker for chest compression as well as wrong hand position e) A disposable lower airway with an integral one-way valve f) Wifi connectivity for wireless tablets, smart phones and/or LCD wired feedback providing both student and instructor Feedback.	1 No
4	NG Tube & Tracheostomy Care Trainer	Head should feature anatomical landmarks, trachea, esophagus, simulated lungs, and stomach. Lungs and stomach may be filled with fluid for realistic practice of many procedures: -Tracheostomy care & suctioning, - NG tube insertion and removal	1 No
5	Advanced Delivery and Maternal and Neonatal emergency Simulator with monitor	Automatic birthing system, fully simulates the real delivery process with CPR Pregnant women	1 No
6	Advanced Multifunctional 3 years Child Nursing manikin (Unisex)	Characteristics of Advanced Multi Functional Child Nursing Manikin (Unisex) and specializing in child care training.	1 No
7	Child IV Training Arm with extra skin	Simulate the arm, 4 yrs old, lifelike arm reproduction with multi veins system designed for peripheral intravenous therapy	1 No
8	Advanced Infant CPR Training Manikin with monitor & voice guided	With anatomical structure and characteristics of infant. It could practice infant CPR training, the monitor supervises the ventilation volume and the compression depth.	1 No
9	Life size Human skeleton	A model of 180 cm tall with muscles and ligaments, on a pelvic mounted stand with dust cover	1 No
10	Spinal cord in the spinal canal model	Spinal Cord in the Spinal Canal Model in one piece, mounted on a base plate	1 No
11	Nasal, oral, pharynx and	A model of the respiratory system, including the oral, nasal cavities, pharynx and larynx.	1 No

	larynx cavities		
12	Jumbo heart	A 3-D working plastic heart model with clear chambers. Squeeze bulb pumps simulate blood through clear heart chambers just like real one. * Complete heart model scale with display stand	1 No
13	Brain and arteries	Model with external features of the brain-cerebral hemisphere, brain stem, cerebellum with arterial blood supply.	1 No
14	Adult female pelvis with stand	Model showing the pelvic muscle and the pelvic organs	1 No
15	Human fetal skull	Natural size, Movable lower jaw, showing incomplete ossification of skull bone, fontanelles, frontal and parietal eminences and various skull bones.	1 No
16	Male Condom Model	Model designed for male condom skill training	1 No
17	IUD Training Simulator	Model designed for training of insertion and removal of IUD	1 No
18	Sanitary Well	Model mounted on sturdy wooden frame for easy display	1 No
19	House Drainage System	Model mounted on sturdy wooden frame for easy display	1 No

TENDER CLAUSES:

1. Turnover 3 lakh of last three years
2. GST should be charge as per applicable rate.
3. Rates quoted should be inclusive of all charges OR F.O.R up to School of Nursing, Civil Hospital, Shillong .
4. The Additional Director of Health Services, Civil Hospital, Shillong reserves the right to reject /cancel any or all other including the lowest quotation without assigning any reason thereof.
5. All disputes can be addressed by amicable settlement by a committee constituted by the Office of The Additional Director of Health Services, Civil Hospital, Shillong.
6. Catalogue, literature of the product being offered.
7. All application on the letterhead of the firm only
8. The Tenderer hereby declares that the goods supplied to the buyer shall be of the best quality and shall be strictly in accordance with the specifications and the particulars contained/mentioned in the clauses hereof. The purchaser will be entitled to reject the said goods or such portion thereof as may be discovered not to conform to the said description and quality as approved.
9. A valid Trade License Certificate from KHADC/JHADC/GHADC for Non Tribal firm.
10. A Valid GST Registration certificate
11. PAN/TIN Card of the firm or the person in whose name the Proprietorship, Firm etc is registered under.
12. Tender document duly filled and signed by the authorized person in all pages
13. Period of delivery will be specified in the supply order

14. Submission of the Bid:

- i) The Bid should be in sealed cover super- scribed “**Tender for Supply Of Various items for upgradation of School of Nursing to College of Nursing, Civil Hospital, Shillong**”and clearly mention the tender reference number and date. The super scribed sealed cover shall consist of three sealed cover inside (i) **Technical Bid**” (iii) **Financial Bid**”.

15. Quantity of Delivered Items:

- a) If the quantity received is less than the P.O quantity, then the physical quantity received will be the quantity certified by the Purchaser.
- b) If the quantity received is more than the P.O quantity, the excess quantity shall not be paid for, by the Purchaser.
- c) In case of any supply quantity with an upper or lower tolerance of over 5%, the Additional Director of Health Services, Civil Hospital, Shillong will have the right to accept or reject the material immediately

16. Taxes, Duties and Levies:

- a) Tender must clearly mention their GST no. in their offers and invoices.
- b) In case if there is a decrease in the Statutory Taxes / Duties / Levies, the same has to be passed to the Purchaser

17. Technical evaluation:

- ✓ Technical evaluation of the items tendered will be done by a Technical Committee constituted by the Office of the Additional Director of Health Services, Civil Hospital, Shillong
- ✓ Specifications for each of the items will be as detailed in the respective Annexure
- ✓ Tenders submitted with technical specifications and commercial bid will alone be considered for evaluation.
- ✓ The commercial bids of suppliers who are successful in Technical Evaluation only would be considered.
- ✓ In case, if Technical Committee is not convinced with any of the bidder’s samples with respect to Quality parameters, then it is the Committee’s decision to scrap the Tender.
- ✓ The decision of the Committee formed by Purchaser would be final.

18. Quality Standards:

- a) The Suppliers/OEM’s are to meet the Quality Standards. The evaluation would be done by the technical committee at the time of technical evaluation
- b) During period of the contract, suppliers shall confirm to quality standards wherever applicable and would be given priority over others.
- c) Suppliers should supply goods which comply with the quality standard as applicable or any other reputed standard only failing which payment of the same will not be made.

19. 17. Quantity Division:

Each Delivery Schedule of Requirement incorporate in the tender enquiry document will be ordered from the Lowest Responsive Bidder (L1). However, it is the purchaser's decision to assess the capacity of the L1 bidder to support the requirement. If L1 refuses to supply and in case of L1 bidders capacity is less than the quantity required, the purchaser has the right to split the order quantity among the other bidders in the order of lowest to highest bidder as per the provisions of transparency in Tenders Act & Rules, provided the next lowest bidder agrees to match the L1 rate.

20. Supplier Responsibility:

- a) Under any circumstances, No supplier shall supply the goods, in which recycled materials are used / used- disposables to the Additional Director of Health Services, Civil Hospital, Shillong and if found any such instances, it will lead to cancellation of Purchase Order and subsequent severe punitive (legal and financial) actions by the Additional Director of Health Services, Civil Hospital, Shillong. However, all the consequential costs are to be borne by the Supplier to the Additional Director of Health Services, Civil Hospital, Shillong
- b) The supplier is responsible for the delivery of the goods in satisfactory condition and without any loss or damage at the final destination and until the same is actually received by the Purchaser at its works or other place of final destination. For this purpose, goods carried by the roadway or other carrier shall be deemed to be carried at the risk of the supplier. If on inspection at final destination the Purchaser discovers any discrepancy, the Purchaser will be entitled (not-with-standing that the property of goods shall have passed on to the company) to refuse acceptance of the goods altogether and claim damages and/or cancel the contract and buy its requirement in the open market at the risk and cost of the supplier, reserving always to itself, the right of forfeiture of any amount found due and payable or the deposit, if any, placed by the supplier for the due fulfillment of the contract as also to recover any amount, if already paid.

21. Compliance of the Laws of the land:

The supplier shall comply with all state and local laws and regulations shall obtain all necessary licensing for the operation of its business and shall further comply with all quality control standards promulgated by the authority from time to time.

22. Termination:

The Tender Committee shall have the right to immediately terminate this Agreement by giving a written notice to the Supplier in the event that Supplier does any of the following:

- I. Fails to supply the order from the date of target delivery date or extension of delivery.
- II. Files a petition in bankruptcy or is adjudicated bankrupt or insolvent, or Supplier discontinues its business
- III. Breaches any provision of this Agreement, and fails to cure such breach within seven (7) days after it receives a written notice of breach from the Additional Director of Health Services, Civil Hospital, Shillong
- IV. The Tender Committee has Right to Terminate without giving any Cause. The Additional Director of Health Services, Civil Hospital, Shillong shall have the right to terminate this Agreement by written notice to Supplier.
- V. Upon receipt of the notice of termination from the Purchaser, the Supplier shall either immediately or upon the date specified in the notice of termination, cease all further supplies except for such as the Purchaser may specify in the notice of termination. In the event of termination of the Contract the Purchaser shall only pay to the Supplier, the Price for the parts executed by the Supplier as of the date of termination.

23. Infringements:

- a) The supplier agrees to fully cooperate with the Additional Director of Health Services, Civil Hospital, Shillong in the prosecution of any such suit against a third party and shall execute all papers, testify on all matters, and otherwise cooperate in every way necessary and desirable for the prosecution of any such lawsuit

24. Governing Law; Dispute Resolution:

- a) This Agreement shall be governed by, and construed in accordance with, the laws of the India; without regard to conflict of law principles, and under the jurisdiction of Meghalaya and language shall be English

25. Dispute Redressal Committee:

All disputes can be addressed by amicable settlement by the Committee constituted.

26. Arbitration:

- a) In the event of any question, dispute or difference arising under this contract (except as to any matters the decision of which is specially provided for by the general or the special conditions.), the same shall be referred to the sole arbitrator or an officer appointed to be the arbitrator by the Additional Director of Health Services, Civil Hospital, Shillong. It will be no objection that the arbitrator is a Government Servant or that he had to deal with the matters to which the contract relates or that in the course of his duties as a Government servant he has expressed views on all or any of the matters in dispute or difference. The 'Award' of the arbitrator shall be final and binding on the parties to this contract.
- b) In the event of the Arbitrator dying, neglecting or refusing to act or resign or being unable to act for any reason, or his Award being set aside by the Court for any reason, it shall be lawful for the Additional Director of Health Services, Civil Hospital, Shillong to appoint another arbitrator in place of the outgoing arbitrator in the manner aforesaid.
- c) It is further a term of this contract that no person, other than the person appointed by the Additional Director of Health Services, Civil Hospital, Shillong as aforesaid, should act as arbitrator and that, if for any reason that is not possible, the matter is not to be referred to Arbitration at all.
- d) Upon every and any such reference, the assessment of the costs incidental to the reference and Award, respectively, shall be at the discretion of the arbitrator.
- e) The venue of arbitration shall be the place from which formal Acceptance of Tender is issued or such other place as the Office of the Additional Director of Health Services, Civil Hospital, Shillong at his/her discretion may determine.

27. The bidder may be delivered in the office of The Principal, School of Nursing, Civil Hospital Shillong. The office will not take responsibility for any delay. The Tender received after the due date and time shall not be entertained.

28. Payment will be made after successful execution of the order in totality or postal delivery, inspection, acceptance and Receipts of the Goods.

29. Bidder who quoted the lowest rate will be awarded with the contract.

30. If L1 is more than one, the Purchase Order will be issued to all L1 bidders with equal quantities or as per the capacity of the L1.

31. EMD Amount:

Tenderer needs to deposit the EMD Amount of Rs.50,000/- (Rupees Fifty Thousand) only in the Form of DD/FDR/Bank Guarantee in favour of "The Additional Director of Health Services, Civil Hospital, Shillong", payable at Shillong, Meghalaya and a copy of EMD in sealed envelope should be submitted along with Technical documents in the P Technical Envelope.

(i) The EMD shall be returned back to unsuccessful bidders within a period of eight (8) weeks from the date of execution of the agreement subject to the receipt of a written application addressed to the Additional Director of Health Services, Civil Hospital, Shillong. The return of EMD shall not carry any Interest Component.

(ii) The E.M.D. / Security Deposit shall liable to be forfeited in the following circumstances when the,

- a) Tender is rejected due to failure to furnish the requisite documents in the proper format or giving any misleading statement or submission of false affidavit or fabricated docs.
- b) Party fails to sign the agreement for entering into contract in case the offer is accepted, due to any reason whatsoever.
- c) Party fails to supply the goods / items as per the orders / Rate Contract (R.C) placed by the Additional Director of Health Services, Civil Hospital, Shillong within the delivery period so stipulated.
- d) Party fails to replace/correct the supplied material /pre-printed stationeries declared to be wrong/different from specification and R.C. holder / successful bidder have to refund the cost of such goods.

ANNEXURE-II

PRICE BID FORMAT
